Enterprise Fiber Add On

Here at Ciel, we have Sonic Enterprise Fiber to ensure a safe, fast & low latency connection. All packages are custom per the production.

See a summary of what we have available below:

WAN (Wide area network) Services:

- 2-Gigabit Sonic Enterprise Fiber internet uplink with guaranteed 99.99% uptime.
- Private firewall protecting from harmful external traffic.
- Public Static IP addresses available

LAN (Local area network) Services:

- Facility wide OM3 & OM4 Multimode Fiber cabling.
- Available on all stages:
 - 10Gb & 1Gb LC Fiber ports
 - 1Gb RJ45 Copper ports
- QOS (Quality of Service) Required upload & download speed (scalable to 2Gbps symmetric).
- Private wifi network.
- Private V-Lan network configuration, with or without our firewall.
- Dante/AES67/Q-sys Friendly network (PTP, IGMP, DiffServe QOS)

On-call Broadcast Media & Entertainment focused IT/Network Engineer (with 48 hours notice).
